### Talent

System One is your trusted partner for all your industrial service talent needs, whether it's for construction projects, plant outages, or ongoing maintenance. Our dedicated team of skilled project managers, craftsmen, and technicians deliver for our clients to ensure that critical requirements are not just met but exceeded, all while prioritizing urgency, quality, and safety.

Our available talent includes these skillsets:

- Millwrights
- Installers
- Mechanics
- Maintainers
- Welders: ASME, D1 Structural, R code stamp
- Project Supervisors
- Project Foremen
- Pipefitters
- Riggers
- Assemblers

## Why Choose System One?

Our commitment to excellence and extensive experience have rendered us proficient in navigating the multifaceted challenges inherent to industrial services and enable us to deliver on projects of all sizes and complexities. Key to our performance are these four core tenets:

### EXPERTISE

At the core of our success is our exceptional team of talented professionals. With diverse skill sets and a wealth of industry knowledge, our experts are well-equipped to handle the most demanding and intricate tasks. Their collective expertise forms the backbone of our ability to provide top-notch service to our clients.

### CHALLENGE ORIENTED

Our experienced technicians have a proven track record of industrial excellence. They have consistently turned various challenges into opportunities for success. This ability to adapt and innovate makes us stand out in the industrial services sector. No matter how unique or complex your project's requirements may be, our team is well-prepared to meet and exceed your expectations.

### QUALITY & SAFETY FIRST

We hold ourselves to the highest standards in the industry. We understand the importance of delivering results that are not only effective but also safe for both our team and the environment. Our dedication to quality and safety ensures that our work is not just efficient, but also responsible and reliable.

### CLIENT-CENTRIC APPROACH

We believe that effective communication is the cornerstone of any successful project. We take the time to listen to our clients, understand their unique needs, and then execute with precision. Our client-centric approach ensures that our services are tailor-made to meet your specific requirements. Your goals become our goals, and we work tirelessly to ensure your satisfaction.

## Our Culture of Safety

Our robust safety culture is characterized by an unwavering commitment to the well-being of personnel and the protection of assets. We begin with a comprehensive risk assessment, identifying potential hazards and implementing stringent safety protocols. Regular training and ongoing education ensure our teams are well-equipped to recognize and mitigate risks. Continuous improvement is encouraged through reporting mechanisms and a culture of open communication. System One's safety measures and equipment are regularly inspected and updated, and our emergency response procedures are well-defined. By fostering a safety-conscious culture, System One's program not only safeguards our most important assets, our people, but also enhances operational efficiency and ensures compliance with industry standards and regulations.
